PROFESSIONAL SUMMARY

Information Technology graduate (B.Tech, CGPA 8.72/10) and full-stack developer with hands-on experience building and deploying production web applications using React.js, Angular, Node.js, Express.js, Django REST Framework, MongoDB, and PostgreSQL. Delivered six full-stack projects featuring JWT-secured RESTful APIs, automated data-ingestion pipelines, and responsive front-end interfaces. Seeking an entry-level Software Engineer or Full Stack Developer role.

TECHNICAL SKILLS

Programming Languages: JavaScript, C++, C, SQL
Frontend: React.js, HTML5, CSS3, Responsive Web Design
Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, CRUD Operations
Databases: MongoDB, SQL, Database Schema Design
Tools & Platforms: Git, GitHub, VS Code, Render, Vercel, Vitest
CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

WORK EXPERIENCE

- MERN Stack Developer Intern — REGEX Software Pvt. Ltd., Jaipur, India** Jul 2024 – Sep 2024
- Built and deployed 3 full-stack web applications (resort booking platform, learning management system, e-commerce site) using MongoDB, Express.js, React.js, and Node.js, validated with 20+ test users.
 - Designed and implemented 10+ RESTful API endpoints covering authentication, bookings, rooms, user management, admin dashboard, and contact forms.
 - Diagnosed and resolved production bugs across the full stack by reproducing issues from user reports and isolating faults through systematic debugging.

PROJECTS

- Vrinda Valley Resort — Full-Stack Booking Platform | Node.js, Express.js, MongoDB, JavaScript**
- Built an end-to-end resort booking system with a Node.js and Express.js backend, MongoDB data layer, and responsive HTML, CSS, and JavaScript front end.
 - Implemented JWT-based authentication, a role-protected admin dashboard, and RESTful APIs for room inventory, reservations, and enquiries.
 - Automated booking confirmation emails and integrated an AI-powered WhatsApp support channel handling reservations, FAQs, and real-time customer queries.
- PsycheVidhya — Mental Health Awareness and Counselling Platform | JavaScript, REST APIs, Local Storage**
- Developed a responsive multi-page web application providing therapy service listings, mental health resources, and an appointment booking flow.
 - Built dynamic UI components with JavaScript, persisted client-side state using the browser Local Storage API, and consumed external REST APIs for supporting content.
 - Integrated an AI-powered chatbot delivering real-time responses and routing visitors to relevant mental health resources.
- DevJobsBoard — Full-Stack Job Aggregation Platform | Angular 22, Django REST Framework, PostgreSQL**
- Built a full-stack job board that ingests live developer and internship postings from 4 external sources (Greenhouse, Workday, Amazon Jobs, Unstop) through their public APIs, processing 500+ raw listings per cycle into a deduplicated, classified feed.
 - Designed a data-normalization pipeline that extracts structured fields (experience range, salary, skills, work mode, deadline) from unstructured job descriptions using regex-based parsing, content-fingerprint deduplication, and role classification.
 - Implemented JWT authentication with token blacklisting (djangorestframework-simplejwt), a saved-favorites API, and filterable, searchable listings with django-filter, plus automated hourly re-ingestion to keep postings current.
 - Developed the Angular 22 front end with standalone components, route guards, an HTTP auth interceptor, job detail pages, and a responsive filter UI (category, city, work mode, experience level).

EDUCATION

- Jaipur Engineering College and Research Centre — Jaipur, India** 2026
Bachelor of Technology (B.Tech), Information Technology | CGPA: 8.72 / 10
- Mayur Public Sr. Sec. School — Jaipur, India** 2021
Senior Secondary (Class XII), CBSE | Percentage: 95.82%
- Central Public Sr. Sec. School — Jaipur, India** 2019
Secondary (Class X), CBSE | Percentage: 90.82%
